

Fall 2021

Greater Bridgeport Retired Teachers Association

## From the President's Desk

Dear Colleagues,

As I write this, summer is coming to a close and the cool, crisp days of autumn will be arriving soon. According to reports, the hot, wet weather we experienced here in Connecticut will lend itself to a spectacular, if short, foliage display. I hope you will be able to enjoy this lovely time of year with a New England vacation of just a short walk around the neighborhood.

Zoom meetings, with distant members in attendance, have kept you current with what is happening in GBRTA. However, I am looking forward to our first general meeting for the 2021-2022 year on October 7<sup>th</sup>. We have not had a luncheon meeting since December of 2019 and I miss the chatter and laughter of the in-person gatherings. Details of the upcoming meetings along with dates and menus will be found elsewhere in this newsletter.

As you should be aware, through emails sent by our communications chair, Barbara Kmetz, the legislature passed a 50% exemption on state income tax on our pensions. We have the Association of Retired Teacher (ARTC) to thank for their lobbying efforts. Please consider joining that organization. Retired teachers do not have union representation and ARTC strives to protect the rights of retirees.

On January 1, 2022, we will have our health insurance provided by United Health Care. More information should be forthcoming.

At this time, our educators have now returned to the classroom full time, where they are finally able to interact with their students. Distance learning attempted to fill the learning gap but nothing takes the place of "hands on" instruction. I'm sure that you are in agreement that if an individual wanted to sit in front of a computer throughout the day they would have chosen another career. If you remain in contact with colleagues that are still teaching please wish them well. Stay healthy, stay safe,

*Rose Marie D'Aquila*

President GBRTA

### We've missed you but we're hopeful!

Do you remember back to April and May? Things were looking up! Vaccines were available and almost all of us lined up to get them. The number of new Covid cases was slowing. Masks and social distancing were part of daily life. The Fall looked bright. Then came Delta and things did not look quite as rosy. Now we're learning about variant Mu—newly found in almost every state. With our fingers crossed, we've scheduled our traditional in-person luncheon meetings for October, November and December and that means . . .

### We might need to cancel and we need to keep in touch!

We all know how the mail has slowed. Despite having a great mail carrier, some of my weekly subscriptions that had been delivered on a specific day of the week are now arriving a day or two later. The fastest way to contact you is through email. Our list is extensive but not complete. We'll send out a special email on **October 1st**. If you don't hear from us, the most likely reason is that GBRTA doesn't have a correct email address for you. You can supply it by contacting

[GBRTA.org@gmail.com](mailto:GBRTA.org@gmail.com)

## Connecticut Legislative Actions

GBRTA is an affiliate of the Association of Retired Teachers of Connecticut (ARTC) and cooperated with that organization to support the following legislative goals in the past legislative session:

- increasing the exemption of teacher pensions from the State Income Tax from 25% to 50%. ARTC was the **only** organization to encourage the passage of this legislation.
- providing the full State contributions to the retired teachers' pension and health insurance funds.
- reducing the assumed rate of return of the Teachers' Pension Fund from 8% to 6.9% to match the rate of the Connecticut State Employees fund.
- adding an additional retired teacher to the Teachers' Retirement Board. Currently there are four active teachers on the Board and two retired teachers. The sharp increase in the number of retired teachers has resulted in a ratio that underrepresents retired teachers.

ARTC's lobbying efforts resulted in the achievement of three of the four legislative goals. The addition of a retired teacher to the TRB was not approved but will become a goal for the next legislative session.

### Meet Rosemary Seaman—GBRTA’s New Treasurer

Rosemary Seaman’s 38 year career in education began as a special education teacher and then as a principal at the high school and middle school levels. She has been a Trumbull resident for over 40

years and actively participated in the community through PTA, sports, the arts, and town government.

Since her retirement Rosemary’s community service includes service on Trumbull’s Board of Finance and Board of Education. Among a wide range of activities,

she tutored non-English speaking adults; chaired the Arts Festival; served as an adjunct professor in the NEAG School of Education at UCONN; and chaired the Trumbull Library’s Board of Trustees.

Rosemary particularly enjoys family time with her two children and four grandchildren. Those grandchildren range from a seventh grader to a college sophomore.

Her “me” time is likely spent listening to music, reading, exercising and lunching with friends. We are pleased that she is GBRTA’s new treasurer.

## TEACHERS AND SOCIAL SECURITY

Retired teachers are often unaware that their Social Security benefits, particularly as a surviving spouse, may be affected by the Government Pension Offset (GPO) and the Windfall Elimination Program (WEP).

Public school teachers in Connecticut are not covered by Social Security for their public school teaching service because in the 1950's teachers chose not to participate. In Connecticut, teachers and school districts make no contributions to the Social Security system and teachers cannot collect benefits based on their work for a school district. Instead, the state provides teachers with retirement benefits through the State Teachers' Retirement System (TRS).

Later, legislation amended the Social Security rules to keep individuals from "double dipping," or receiving both a Social Security benefit **and** a pension from a job where they did not pay into the Social Security system.

If you are a teacher in one of the 15 states that participate solely in their own pension plans instead of Social Security, the rules for collecting a Teacher's Retirement System (TRS) pension **and** Social Security can be confusing. That's especially true if you've paid into the Social Security system in another position for enough quarters to qualify for a benefit, which is fairly common among teachers.

The WEP applies to individuals who are eligible for a Social Security benefit **based on their own work history and have a pension from work where they did not pay Social Security tax**. WEP recalculates your Social Security benefit, resulting in a lower benefit amount.

The GPO applies to individuals who are entitled to a Social Security benefit **as a survivor or spouse and have a pension from a Federal, state, or local government job, in which they did not pay Social Security tax**. If you meet **both** requirements your Social Security survivor or spousal benefit will be reduced by an amount equal to two-thirds (2/3) of your pension.

Legislation to change both the WEP and GPO formulas have repeatedly been introduced in the Congress. In the current Congress the bill has been introduced as H.R.82 - Social Security Fairness Act of 2021.
